## ABOUT ME

A passionate and detail-oriented Full Stack Developer with expertise in front-end and back-end development. Proficient in creating responsive web applications using HTML, CSS, Bootstrap, and JavaScript. Adept at database management, and problem-solving. Seeking an opportunity to contribute technical skills and creativity to a dynamic development team.

## PROJECTS

### 1. [Portfolio](#)

A personal website showcasing skills, projects, and resume. Designed using HTML, CSS, and Bootstrap.

- Implemented a fully responsive layout.
- Integrated contact form functionality.

### 2. [Blog Project](#)

- A simple Blog Application built using Node.js, Express, MongoDB, and EJS.

This project allows users to create, edit, delete, and view blogs.

### 3. [Bhagwat Gita](#)

A simple and responsive web page created using HTML, CSS, and Bootstrap.

This project is focused on practicing frontend design skills including layout, spacing, responsiveness, and basic Bootstrap components.

- HTML
- CSS
- JavaScript

### 4. [Event Handler](#)

A simple web application demonstrating JavaScript event handling with interactive UI elements.

- HTML
- CSS
- JavaScript
